GROWN BY  
FAIR OAKS BULB GARDENS

Woodburn, Oregon

1930-31

# Foreword

## Bulbs:

We offer only first size selected bulbs of highest quality from which no flowers have been cut.

## Guarantee:

Our bulbs are guaranteed true to name and are certified by government inspectors.

We have exhibited blooms from our bulbs many times in competition with the largest bulb growers of the country, and have never failed to win the blue ribbons.

## Varieties:

The bulbs listed have been chosen with extreme care and include only the best varieties in each group.

Terms:—Cash with order.

6 bulbs of one variety at dozen rate.

25 bulbs of one variety at hundred rate.

No order for less than \$1.00.

All bulbs will be forwarded prepaid to all points in the United States.

## Narcissi or Daffodils

These are almost the first flowers to bloom in the spring and by a judicious selection of varieties may be enjoyed over a period of two months. Most of them may also be forced for winter bloom. Our bulbs are grown in the famous Willamette valley of Oregon where soil and climate combine to produce the finest bulbs. Shipment can be made any time after August first.

Prices are for large double nose bulbs. Round nose 25% less.

### TRUMPET DAFFODILS

Yellow Trumpet. Trumpet yellow and as long as perianth segments. Perianth yellow.

	Each	Doz.	100
CLEOPATRA—A magnificent variety. Broad light yellow imbricated perianth, long bold deep yellow trumpet	\$ .40	\$ 4.00	\$30.00

---	-----	------	--

### MIXED DAFFODILS

A splendid mixture containing many fine varieties and sure to produce satisfactory results .....		1.00	7.50
--	--	------	------

## Tulips

Tulips are hardy and of easy culture, giving a brilliant display from early April to the end of May. Charming effects are obtained by planting them in the open spaces among the shrubbery or in the herbaceous border. For best effects allow four bulbs for each square foot to be planted. The varieties we offer are the best of their type and color.

### EARLY TULIPS

COULEUR CARDINAL—Flowers rich crimson scarlet with plum-crimson shading on outer petals; excellent bedding variety .....	.10	.85	5.50
FREDERICK MOORE — Terra cotta with golden buff-orange tinge, sweet scented; very fine.....	.08	.75	5.00

## Iris

### DUTCH IRIS

The hardiness and wonderful coloring of the new Dutch Iris make them very popular for garden purposes, and they are unsurpassed for cut flowers. If cut as the first bud is opening, they will keep for two weeks in water. They begin to bloom early in May and continue into June. The bulbs should be planted in October.

	Doz.	100
E. B. GARNIER—Standards and falls uniform deep blue. 24 inches	\$1.25	\$ 9.50

POGGENBEECK—Uniform dark blue, great improvement on Imperator. 30 inches.....	1.50	11.00
THERESE VAN DUYLL - SCHWARTZE—Standards pale corn-flower blue, falls pure white with narrow orange stripe. 24 inches.	1.25	9.50

QUEEN OF MAY—Soft rosy violet, almost pink; charming .....	.20	2.00
SHERWIN-WRIGHT—Golden yellow without markings; free flowering.....	.25	2.50

## Lilies

Lilies are among the loveliest of the hardy plants, and lend a charm to the summer garden that cannot be obtained without their use. The ideal situation for lilies is in the hardy border, provided it is well drained and not too crowded, for here they will have the necessary shade for the ground, while their beautiful blooms will stand out against the background of green. We have selected only those lilies which do well with ordinary care, and recommend that they be planted in the fall, although all except *Lilium Candidum* may be planted in the spring also.

Bulbs will be ready for delivery during October and November.

	Each	Doz.
AURATUM PLATYPHYLLUM—The choicest of all auratums; large ivory-white flowers richly spotted with yellow. Aug.-Sept.....	.50	5.00

<b>LILY SEEDS</b>		
L. Regale, Pkt. ....		.25
L. Washingtonianum, Pkt. ....		.25

#### EARLHAM HYBRID MONTBRETIAS

These magnificent new Montbretias are finer in every way than the ordinary Montbretias, being taller and more luxurious in growth, and having flowers of great size and beauty. On the Pacific coast they may be planted in the fall, but in severe climates spring planting is best.

HIS MAJESTY—Deep velvety scarlet blooms, shading down to gold at the center; reverse of petals dark crimson shading down to gold. The largest flowered of all Montbretias, flowers often measuring 4 inches or more across.

QUEEN ALEXANDRA—Chrome yellow with carmine blotch at base of petals.

UNA—Flowers rich apricot with carmine blotch. A charming variety.

Any of the above varieties, 40c each, \$4.00 per dozen. Set of 3 bulbs, 1 of each variety, \$1.00.

#### MISCELLANEOUS BULBS

	Doz.	100
MUSCARI—(Grape Hyacinth) — Blue.....	.35	2.00
SCILLA (Squills) Campanulata, spikes of bell-shaped flowers, blue; fine for naturalizing....	.35	2.00
